CONSTRUCTION SUB-SYSTEM COMPLETION NOTIFICATION (CSSC)

SUB-SYSTEM

System No.: AQAT-38
System Description: Fuel gas
Sub-system No.: AQAT-38-01
Sub-system Description: Purge gas

CONTRACTOR certifies that a joint COMPANY/CONTRACTOR review of the construction "A" CheckSheets has been conducted, that all Construction Activities have been completed, and that the following functional Systems of the Facility are complete and therefore in readiness for commencement of the associated Pre-Commissioning activities, with the exception of the outstanding items listed upon the attached Punch list. CONTRACTOR also provides here with the attached Certificates by Certifying Authority, and others for Company review. It is understood that should CONTRACTOR fail to complete all of the outstanding items in respect of a System, within the respective period stated upon the Punch list, the present certificate shall be null and void in respect of such System.

Issuance of this CONSTRUCTION SUB-SYSTEM COMPLETION NOTIFICATION shall not relieve CONTRACTOR from his obligations and other provisions of the CONTRACT, which expressly or by their nature, survive the said certificate.
